

Urban farming for health, employment and ecology

Wednesday 23rd November 3pm – 5pm
at 10 East Reach, Taunton

Growing food doesn't just happen in the countryside. Unused land in Taunton is being made productive by a few pioneers, and they need your support. Whether you are looking for a chance to make a difference, want to develop a healthy and sustainable form of employment, or just love getting dirt under your fingernails, you'll find something in this event for you.

Speakers: David Clegg (*Head gardener, Somerset CCLT*); James Dexter (*Farmer at Wild Geese Acres with the Ecological Land Co-operative*); Alex Lawrie (*Co-op Development Worker*)
