

NFPFA Annual report

The acquisition of a new mower has allowed the playing fields to be more easily maintained to a good standard. Four football teams have been able to play games on the site both at weekends and evening fixtures with only minimal disruption to the games schedule due to weather and grass condition. In addition, the playing fields have provided space for the casual users whether that be children playing ad hoc games, joggers or people exercising their dogs.

Cutting stopped the week before Christmas and has only just begun again partly due to inclement weather and partly due to an enforced hospital operation causing a 6 week delay. We are grateful to Brian (who had retired) and his apprentice Geoff for lining the pitches and restarting the grass cutting during this time. Certainly in 2 to 3 weeks all the grass will have been cut short again and there will be cuts every 2 weeks for the whole area. In short hopefully the playing fields will be looking good for the summer.
